Exciting Partnership Announcement:

Echo Eight Joins TIPA Solar's Journey

We are thrilled to announce our new partnership with Echo Eight, a visionary company that shares our passion for transforming the future of renewable energy. After months of discussions and alignment on values, we have agreed on terms for Echo Eight to invest in TIPA Solar, marking a significant milestone in our journey.

This investment is more than just financial backing—it is a strategic alliance that will fuel our growth, accelerate our development, and open doors to high-impact collaborations. With Echo Eight's support, we are strengthening our position as a leader in innovative solar technology, forging partnerships with multinational corporations, governments, and global conglomerates to redefine the future of decentralized energy generation.

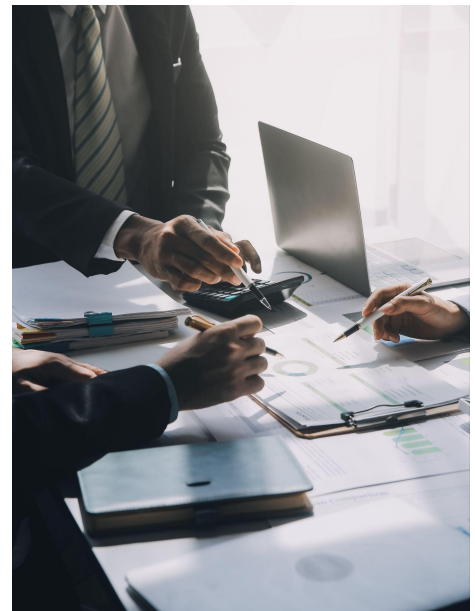

About Echo Eight

Echo Eight is not your typical institutional investor. They are true partners who believe in the transformative power of sustainable innovation. Their approach goes beyond capital; they bring deep expertise, a global network, and a shared commitment to a cleaner, more resilient energy landscape. Just as they support our vision, we are equally committed to supporting theirs—creating a synergy that will drive groundbreaking advancements in the renewable sector.

While we will be sharing further details on the investment and our upcoming growth plans soon, we wanted to be the first to celebrate this milestone with you—our community, partners, and supporters.

Stay tuned as we embark on this exciting new chapter together!
